PROFESSIONAL SUMMARY

Product designer who builds and ships production software end to end: designs, interfaces, backend, AI agents and CI/CD deployments.

Focused on the intersection of exceptional user experience and data-driven success by leveraging cutting-edge AI-powered efficiency. I consistently deliver products that are not only aesthetically pleasing but also excel in driving key business growth metrics.

SKILLSET

- **Product design:** Generative AI, Figma/Claude MCP, Figjam, Figma Weave, Claude design, Design tokens, Paper.dev, Google Stitches
- **UI and Frontend engineering:** React, Next.js, Astro, Typescript, Tailwind CSS, Greensock, Motion
- **Motion design:** Jitter, Lottie, Spline
- **Backend:** NodeJS, Bun, Express, NestJS, Hono
- **Others:** Drizzle ORM, Prisma ORM, MongoDB, Postgres, React native, Expo

EDUCATION

- **Postgraduate Diploma in Design Thinking and Innovation** from Emeritus in collaboration with MIT, Tuck and Columbia University
- **Enterprise Design Thinking Practitioner** from IBM
- **Human Centered Design Certification** from Acumen

WORK EXPERIENCE

Lead Product Designer

DeerX Technology, USA – (Feb 2026 - Sept 2026)

I spearheaded the design and development of digital wallet platforms and multiple SaaS applications, while building dynamic websites using Strapi CMS. Additionally, I drove product management initiatives by defining strategic roadmaps and overseeing cross-functional project execution to align deliverables with business goals.

Leading the team of 6 people I lead the foundation roadmap, plan and execution of multiple projects simultaneously delivering client satisfaction.

Senior Product Designer

Genese Solutions, UK – (Dec 2024 - Dec 2025)

I led the end-to-end design of complex, data-driven experiences for our core mass messaging platforms, transforming massive datasets into intuitive and actionable user interfaces. By leveraging a deep expertise in user-centered design and advanced data visualization techniques, I utilize tools like Figma and AI tools to architect high-impact dashboards and charts that highlight critical business metrics.

Senior Product Designer

Fundo Loans, Australia – (Dec 2024 - Dec 2025)

Create high-quality, intuitive, and user-centric interfaces for our digital products, considering both desktop and mobile platforms. Building immersive and engaging user experiences. You will work closely with cross-functional teams to conceptualize, design, and deliver innovative solutions that meet both user needs and business goals.

Senior UI Engineer

Storeganise, Singapore – (March 2021 - Jun 2023)

Product Designer

Leapfrog Technology Inc, Hybrid – (2years 3months)

Frontend Engineer

Zarathustra Technologies, UK, Contract – (8months)

UX Contractor

Yellow Umbrella, Switzerland, Contract – (1year 3 months)
